

Preliminary Amendment filed January 10, 2008  
U.S. Patent Application Serial No. 10/593,347

REMARKS

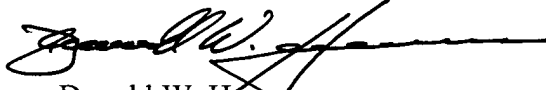

The claims have been amended in order to more particularly point out and distinctly claim the subject matter to which the applicant regards as his invention and to remove multiple dependent claims. Among other things, the claims have been amended to incorporate amendments as made in the PCT Article 34 Amendment.

The above amendments are believed to place the claims in proper condition for examination. Early and favorable action is awaited.
